Learn English and Make Friends from Around the World!
It is one of the greatest gifts you can give your child. Let him or her... **Learn English and have fun in both the USA and Canada!**

Over the past 50 years, ELS has taught English to more than 1,000,000 students from around the world. Our one-of-a-kind Junior Programs combine English lessons during the day with exciting, fun-filled activities in the afternoons and evenings! Our instructors are caring professionals who bring with them a great deal of teaching experience.

Each weekend, students go on full-day trips to some of the most popular attractions in the area. This allows them to interact with local residents, and gain additional opportunities to practice their English while having fun.

During their Junior Program, many participants live on campus and are supervised at all times by an ELS staff member. By living on a college or university campus, campers have an opportunity to experience North American culture, while enjoying new friendships that are sure to grow. Our counselors also live on campus with the students, making this adventure safe and enjoyable for excited young learners experiencing their first time away from home.

Some of our Junior Programs offer homestays with local English-speaking host families. Living with a host family can help your child learn English faster while experiencing customs and culture firsthand. Students often develop very close relationships with their hosts - friendships that can last a lifetime.
